AN INTERESTING ADDRESS.

Mr. Scott Williams, a missionary in Mexico, spoke very interestingly at the Presbyterian church on Monday evening to a good sized audience, despite a very short notice of his coming. Mr. and Mrs. Williams have worked among the Mexicans a good many years, 14 years having elapsed since their first furlough. His description of the country, the cities and towns, the people, their customs, dress and manners was specially interesting. Mexico seems to us quite a far-away, foreign country, and perhaps we do not read and think as much about its people as we do those farther away. But Mexico is only three days journey from Chicago, and it is one-fourth the size of the United States, with a thickly populated country. Most of the region is hilly and mountainous, with vast mineral resources. The people all have Indian blood, with brown skin, beautiful brown eyes and black hair. They are a much better looking class of people than the Indian, and Mr. Williams considers them far superior in intellect to the foreigners in our country, the Italian, Hungarian or Syrian. Mr. and Mrs. Williams are supported by the Young Peoples' Endeavor Society of the Presbyterian churches in Michigan and their labor among the Mexican people was spoken of with enthusiasm.

The box and fish pond, social held at the Menerey school house last Friday evening was largely attended and provided a success financially and socially. About \$15 was made which will be used in purchasing a library for the school.
